

## Entry Level Landscape & Swimming Pool Designer / Salesperson

Design Ecology is currently seeking an entry level designer / salesperson with one to five years of professional experience. We are a landscape architectural design / build firm specializing in high end residential estate master planning and unique swimming pools for the Austin Texas area. The studio atmosphere is fast paced, demanding, collaborative & very creative. The candidate selected will have the opportunity to work in all aspects of the firm from marketing to final plan production & construction administration. Compensation will be based on experience, desire and ability.

### Skills Required:

The successful candidate will demonstrate creative design, strong graphic production and exceptional communication skills. Candidates should have a thorough understanding of the design process from conceptual design through the production of construction documents.

### Education & Experience:

- BLA, BSLA, MLA or related degree from an accredited university
- Experience with hand drawing & color rendering presentation methods
- Proficiency with Auto CAD 2011, Adobe Creative Suite & MS Office
- Experience with 3-D modeling software including Sketchup is preferred
- Construction documentation & detailing experience including irrigation design
- Experience with cost estimation, production of proposals & contracts
- Working knowledge of plant materials appropriate for central Texas
- Strong oral, graphic & written communication skills
- Time management & organizational skills
- The ideal candidate will have experience with swimming pool design, high end residential landscape design & sales.

### Compensation:

Is commensurate with experience & ability

### Travel:

A limited amount of travel within the central Texas area may be required.

### Submittal:

Please submit cover letter, resume & work samples to Scott Cummings via e-mail at [scott@decoaustin.com](mailto:scott@decoaustin.com). No phone calls please.
